EDUCATION

University of Cincinnati | School of Information Technology

B.S. in Cybersecurity, B.S. in Network/Systems Administration

Cincinnati, Ohio

Junior - Graduation: May 2029

GPA: 4.00

PROFESSIONAL EXPERIENCES

Awetomaton Ltd.

Platform Engineer Intern

Beavercreek, Ohio

May 2026 - August 2026

- Authored ~97% of the project repository, developing a production-grade Kubernetes observability Helm chart
- Successfully deployed into a classified, air-gapped environment as Wright-Patterson Air Force Base for RKE2/OpenShift
- Engineered a portable stack integrating Prometheus, Grafana, custom dashboards, exporters, & deployment runbooks

SoIT Teaching Assistant

Computer Networking & Fundamentals of IT

Cincinnati, Ohio

August 2026 - Present

- Designing networking labs using enterprise switching, routing, and physical infrastructure for a Computer Networking course
- Building standardized, resettable environments enabling students to configure and validate real-world network deployments
- Mentoring 143 students through hands-on technical instruction, individualized support, and 20 weekly office hours

APPLIED PROJECTS

Personal Infrastructure Lab

Owner/Operator - github.com/tyler-dalton

Cincinnati, Ohio

December 2025 - Present

- Host multiple clients on a hypervisor such as Grafana, and Prometheus for infrastructure scrapes, uptime, and monitoring
- Created a recursive and locally hosted DNS server to block ads across network, a locally hosted VPN accessible worldwide
- Configured a deny-all firewall using OPNsense, controlling traffic & inter-VLAN routing for a three-node cluster

Kubernetes Enterprise Cluster

Owner/Operator - github.com/tyler-dalton

Cincinnati, Ohio

May 2026 - Present

- Architecting and provisioning a 5-node Kubernetes cluster to simulate enterprise production patterns and workflows
- Deploying infrastructure through GitOps using Helm, Kustomize, and CI/CD pipelines to standardize cluster changes
- Building operational maturity with multi-node scheduling, role-based workloads and documented runbooks for administration

IT Fundamentals: Modern Problems With Modern Solutions

Project Manager – <https://fishnet.replit.app/>

Cincinnati, Ohio

August 2025 - December 2025

- Managed a team of 5 students in ideating, designing, and presenting a fully functional Phishing corporate training platform
- Fostered leadership skills to improve collaboration and resolve conflicts, maintaining team focus and productivity
- Directed the creation and strategic execution of a polished investor-style pitch earning first place in class rankings

TECHNICAL SKILLS & CERTIFICATIONS

Languages & Templating: YAML, Mustache, Go Templates, bash, Python, Java & JavaScript, HTML, CSS

Infrastructure & Deployment: Red Hat OpenShift & RKE2 Kubernetes, Helm, Kustomize, ArgoCD, CI/CD, Terraform, AWS

Databases & Querying Languages: SQL Server, PromQL, SQLite

Linux: Ubuntu, RHEL, Kali, Alma, Proxmox, Arch, Mint, Fedora

Productivity: Excel, Project, Word, PowerPoint, Access, Git

Certifications: Microsoft Office Specialist

LEADERSHIP & INVOLVEMENT

Cyber@UC Cybersecurity Club

Cloud Infrastructure Engineer

Cincinnati, Ohio

January 2026 - Present

- Develop and maintain infrastructure using IaC specifically Terraform, in order to provision CTF servers, databases, etc.
- Monitor over 21 virtual machines, giving each member in the club the opportunity to access sandbox's to enhance skills
- Attend hacking lab on a bi-weekly basis to understand and execute internal threat simulations through Linux machines

Mason Youth Football Organization

Offensive Coordinator

Mason, Ohio

August 2023 - Present

- Manage an offense with over 25 personnel, scout opponents and develop a specialized playbook that targets pain-points
- Observe tendencies of the opponents defense, make real-time adjustments to the gameplan based on information found

AVAILABILITY - SPRING 2027 & SUMMER 2027
